

inCharge[®]

THE **100W** SWISS ARMY KNIFE OF CABLES

ULTRA FAST

LIKE NO OTHER

inCharge® X

02

THE BEST OF THE BEST!

ULTRA FAST

THE WORLD'S NO. 1 KEYRING CABLE IS NOW ULTRA FAST!

THE SWISS ARMY KNIFE OF CABLES NOW **SUPER-CHARGED**

2020 saw **inCharge®6** become the most successful cable in the history of crowd-funding.

We spent the following 12 months listening to the feedbacks of our community, to develop the best universal cables ever seen, **inCharge®X** and **inCharge®X MAX**.

inCharge®X allows USB-C to USB-C **ULTRA FAST-CHARGING up to 100W*** and Apple's FAST CHARGING up to 18W. Thanks to its proprietary chip, **inCharge®X** can even charge laptops and tablets.

So that you'll never be without power again.

ALL THE FEATURES YOU'VE ALWAYS WANTED, YOU WILL EVER NEED!

TAKE IT, AND GO!

ULTRA FAST

EVERY DAY CARRY, ALWAYS WITH YOU WHEN YOU NEED IT!

SMALLEST KEYRING CABLE ON THE PLANET.

In our daily life, we often find ourselves without the right cable to charge our phones, tablets and other electronic devices.

Thanks to its portability and wide compatibility, **inCharge®X** makes low-battery a problem of the past.

inCharge®X is ultra compact and weighs less than 25grams (0.8oz). You will always have the right cable with you, when you most need it!

ON YOUR KEYRING BUT YOU WON'T EVEN FEEL IT!

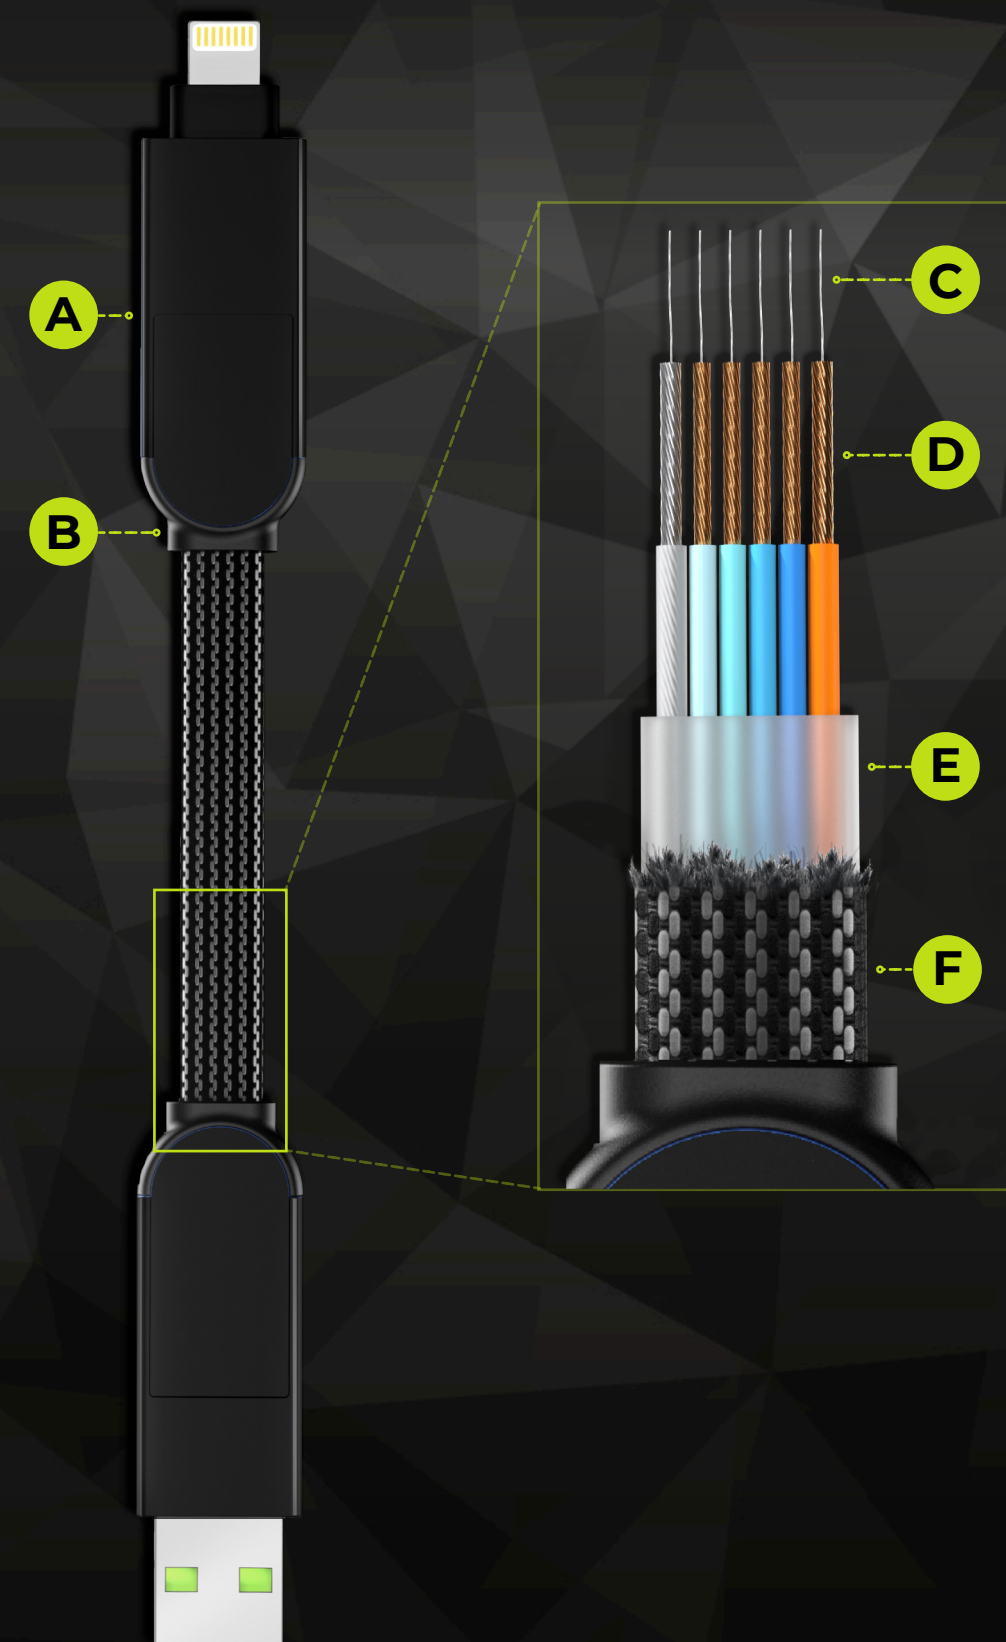

BUILT TO LAST!

ULTRA FAST

THE MOST DURABLE CABLE EVER MADE!

SMALLEST KEYRING CABLE ON THE PLANET.

- A METAL HOUSING:** The Zinc-Aluminum(**ZnAl**) alloy creates an ultra tough shell that protects the chips.
- B CABLE GUARD:** The TPU cable guards prevent the cable from reaching its critical bending level, protecting the copper wires and increasing its lifespan.
- C ARAMID FIBRE:** Increases thermal, chemical and abrasion resistance.
- D BRAIDED COPPER WIRES:** 200 braided copper wires allow the current to flow faster, delivering up to 100W
- E TPU PROTECTION:** The single cables are embedded in a flexible and durable TPU layer to increase the bending strength.
- F NYLON REINFORCEMENT:** The external layer is made of a double weaving Nylon mesh, which increases the abrasion resistance to make **inCharge®X** the most durable keyring cable.

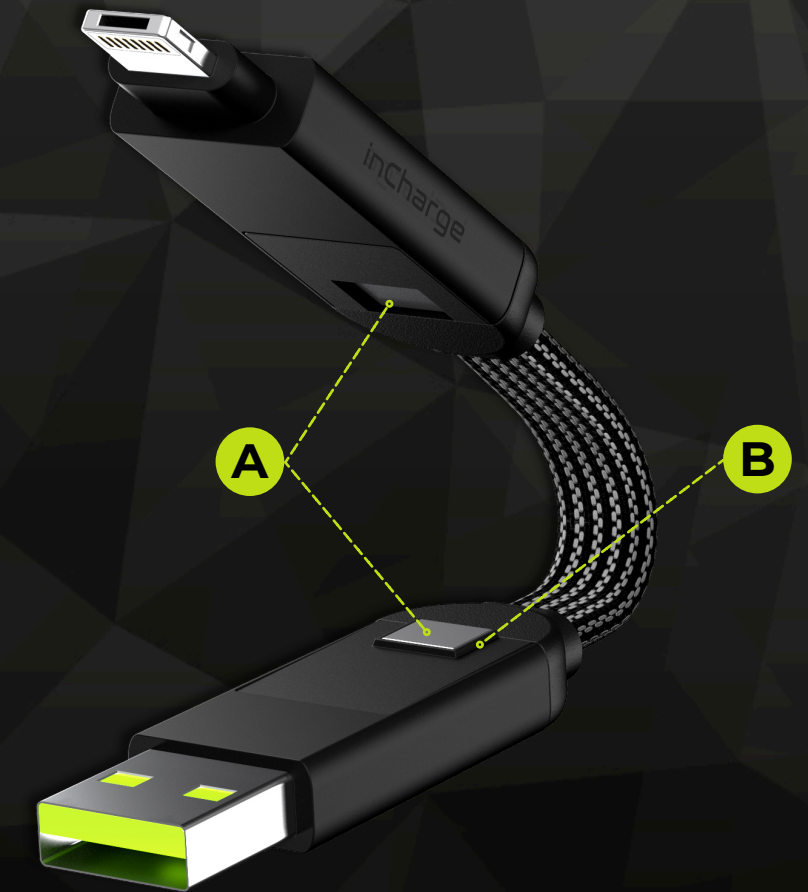

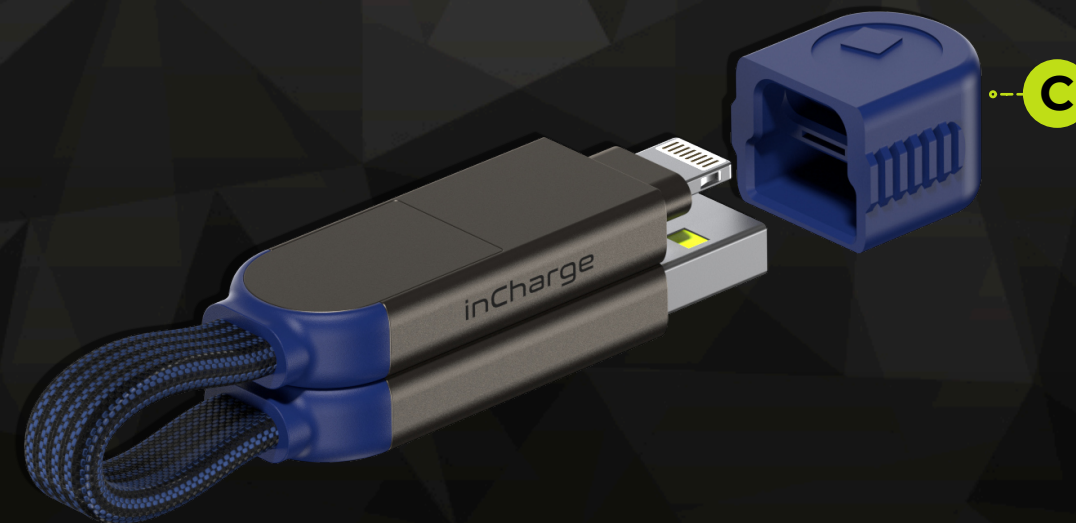

WELL THOUGHT DESIGN, IN FACT, SIMPLY GENIUS!

ULTRA FAST

ANTI-SLIDE SYSTEM

NEVER LOSE YOUR **INCHARGE®X** FROM YOUR KEYRING, WE DEVELOPED THE ANTI-SLIDE SYSTEM

- A N52 MAGNETS:** In a scaled form 28 to 52, **inCharge®X** features the highest grade of Neodymium magnets possible
- B CROSS SNAP:** The two magnets intersect in a cavity that prevents the two connectors to slide open
- C PROTECTIVE CAP:** To protect the connectors from sharp objects as keys, and to protect other objects in your pocket from the metal connectors, **inCharge®X** provide a TPU Protective Cap.

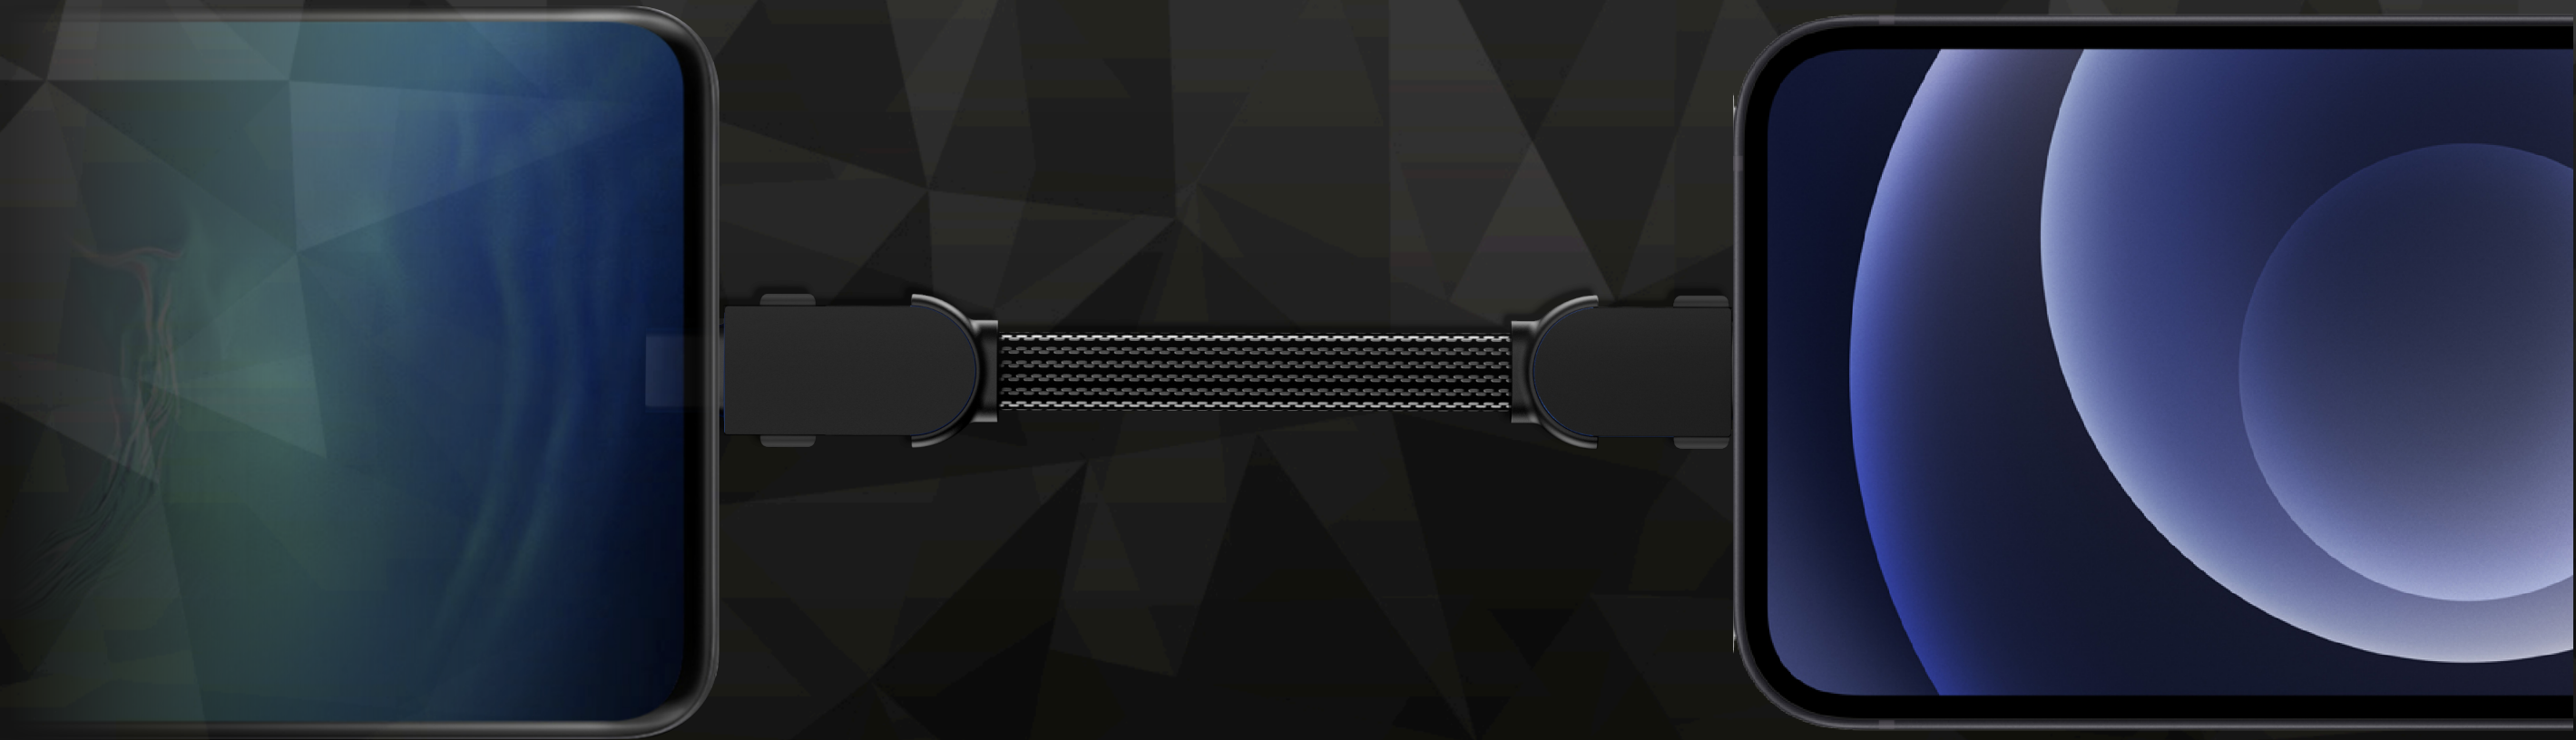

ALWAYS HAVE POWER!
